

**GIS Specialist/Surveyor  
Job Announcement  
Fresno Irrigation District  
Fresno, CA**

The Central California's premier irrigation district, the Fresno Irrigation District, is looking for an experienced Civil or Agricultural Engineer to join their team and help in their continued efforts to manage water resources.

**About Fresno Irrigation District:**

The District is made up of 245,000 acres of rich farmland and urban areas all within Fresno County. Water from our infrastructures supplies the rapidly growing metropolitan areas of the City of Fresno and the City of Clovis.

The mission of the Fresno Irrigation District is to protect and manage the surface and groundwater resources of the District in order to meet the present and future water needs of the people and lands within the district.

"Your Most Valuable Resource – Water"

**About Fresno**

Fresno is the largest metropolitan city in Central California's San Joaquin Valley and the fifth largest city in California! Fresno County is one of the top counties in the nation in agricultural production, and is well-known for the amazing variety and quantities of produce. As the business, financial, cultural and entertainment capital of the San Joaquin Valley, Fresno is host to a variety of natural wonders (convenient access to Yosemite, Sequoia and Kings Canyon National Parks), and is only three hours away from the Bay Area, Pismo Beach, Monterey, and Los Angeles.

**Position Responsibilities:**

The GIS Specialist/Surveyor will perform a variety of professional engineering office and field duties and requires a high degree of technical knowledge and requires competency in using SQL, Python, .NET, or other programming languages necessary for supporting GIS. This position requires initiative, and independent judgement. This position is responsible for the implementation, operation, and maintenance of the District's Geographic Information System (GIS), acts as the District's Party Chief on the surveying crews, prepares and reviews reports, legal descriptions, easements, rights-of-way, contract documents, drawings, and other engineering documents; and performs other related duties as required.

**Education:**

- High school diploma or equivalent
- Bachelor of Science degree in Land Surveying, Geomatics, Civil or Agricultural Engineering

**Experience:**

- One (1) year of related technical experience (which can include an internship)
- Competent in using SQL, Python, .NET, or other programming languages necessary for supporting GIS.

**Other Expectations:**

- Must be able to work independently
- Must be capable of taking initiative and exercising independent judgment

**Salary:** \$4,662.57 - \$5,952.27 per month/DOE

**Benefit Highlights:**

- Health Insurance: Medical, dental, vision
- Retirement Benefits: 401k with 6% match, 457, medical/dental/vision retirement package
- District Paid Insurance: Life, short-term & long-term disability
- Vacation, Sick Time, 11 Paid Holidays
- And more
